## Programs for Tutoring and Test Prep Companies

### 1) Teaching You To Teach Better.

Teaching the SAT or ACT is no easy matter, and finding qualified applicants is very difficult. Just having high score is NOT nearly enough. Not only that, turnover is high, leaving you with a constantly changing group of untrained, inexperienced instructors.

Our Teacher Training Program works with your instructors and tutors to make them the best there is.

Many institutions and organizations have already had our Award-Winning Head Teacher analyze and assess their teaching and then teach them to make it better. Contact us to set up an evaluation of your teaching.

Teaching is NOT just going over questions and problems with students, nor is it just standing in the front of a room reading an instructor's manual.

- Learn to give CLEAR, SIMPLE, DIRECT explanations.
- Learn HOW MUCH of an explanation to give.
- Know when you are teaching too much or too little.
- Find out if your students are actually confused and don't understand you.
- Know when to talk and when to keep silent.
- How to manage large classes.
- Discover what comments are counterproductive towards students.
- Know what to do when students in a class are of differing ability
- How to properly design and develop a course
- How to create a balanced lesson
- How to know what speed to move at
- How to create a positive learning environment

### 2) Course Material & Lesson Licensing

- Buy our Award-Winning SAT & ACT curriculum and use it to teach students. It's ready to go, and is constantly updated.
